EARTHMONTH2017

HERE'S HOW YOU'RE HELPING US PROTECT WATER IN YOUR COMMUNITY

American Rivers
Rivers Connect Us®

American Rivers works to protect wild rivers, restore damaged rivers, and conserve clean water for people and nature.

Here are some ways you can help your river from your home:

- 1. Repair dripping/running faucets and toilets.**
- 2. Only run the washing machine or dishwasher when full.**
- 3. Reduce your use of fertilizers and herbicides on your lawn.**

As your local water partner, we're grateful for your support during Earth Month.
